

Work Opportunities Unlimited staff...have always been wonderful to work with. They have always taken our business needs into account, and have always displayed a caring committed attitude toward Ed A.. We do recommend you to others, and will continue to do so. (I will always remember when there was a transportation problem and I contacted WOU and despite the staff being sick they solved the problem by phone because they knew Ed well enough to know that this needed his help now. Few would have done that.) Please refer interested business partners to talk to me, because it has been a win-win-win situation- good for our business, good for Work Opportunities, and good for Ed, to have this great partnership.
