Dear Mr. Mountain:

I would like to take this moment to applaud your work, your staff and the most importantly the associates that support us here at Stop & Shop. The associates that you have placed in our location have been a great asset to our store. They perform many different tasks and at the same time have become part of our store's community. It is a pleasure to see that we at the store are able to brighten the day for more than just our customers. I personally feel proud to see these associates contribute to society and further themselves as they attempt to acclimate into society.

Your support staff has been nothing less than professional. They address any issue and communicate limitations or constraints that an associate may have. Each member takes the initiative to keep their group motivated and on track. Many times I find myself frazzled with the day to day operation of the store. Your staff members never seem to get frazzled and always remain positive in many situations that would make a lesser person snap.

Once again, I would like to thank you for the opportunity to work with you and your organization. I am looking forward to working with Work Opportunities in the future. I would also wish to extend my assistance to help you expand your role in our other Stop & Shop's in the area. It has been a pleasure to be associated with the Work Opportunities.

Sincerely,

Chris Stephens
