I am writing to acknowledge the positive partnership Lowe's #2657 has had with Worker's Opportunity Unlimited.

As a new store opening in the local community, it was critical that we were able to effectively locate qualified individuals to be a part of Lowe's team.

In partnering with WOU, we have been able to hire multiple individuals who have become integral members of our culture.

These employees all remain with us nearly one year later, and each has demonstrated professional characteristics that we are proud to have representing our store.

Lowe's has maintained its partnership with WOU, in fact, we have had the opportunity to meet with several additional individuals for both work-skill assessments and workplace readiness conversations.

Based on previous success, Lowe's #2657 fully anticipates involving Worker's Opportunity Unlimited as future employment needs arise in our store.
